It is appropriate that a website named "setterholm.com" have some information on the Setterholm family. This document is somewhat broader in scope in a Jeff-centric way: it includes not only pictures of the Setterholm Patriarchs, but indeed pictures of all of my great grandparents with many of their children.

My father: **Vernon Miles Setterholm.**

Vernon's father: **Lewis Oliver Setterholm.**  
(see: [SetterholmLewisO.jpg](#))

Lewis's mother: **Anna (Glass) Setterholm**

**Anders** and his brother **Frans** took the name Setterholm from a Swedish minister who had no children. Hence, almost all, or all, of the Setterholms in America are descended from these two brothers. Below is **Frank John Setterholm** with his family. (The names are probably correct *but were placed with the faces by guesswork.*)

 Scanned from family pictures. As a two year old, Georgiana survived the Indian siege of Fort Ridgley Minnesota in 1862. Her three year old sister wasn't as fortunate.

Below is a labeled image of my father's mother **Agnes (Svendsen) Setterholm** and all her descendents as of 1972. I knew who all the people were, except that Wendy and Anne had to help me differentiate themselves.

Give serious thought to tapping the mental resources of your ancestors-still-alive. They can help you similarly label their old family group photos. Such images are a particularly enlightening form of genealogy that are well received by descendents and are easily distributed.

Sending a letter of inquiry and copies of old photos to the old folks home in Newfolden, Minnesota eventually connected me to Lester Svendsen and Morris Hansen.

Some day, the present will be the distant past, and you'll be an ancestor. Perhaps you sense the opportunity.
