MAGA: Willful, Lawless, Pretentious, Treacherous, Destructive, Delusional, Idiotic Fanaticism

"MAGA" = "Make America Great Again"
…a 21st century political movement in the United States of America.

A reincarnated, extremely well-funded,
chaos-centric lust for wealth & power,
organized & led by people who enjoy
watching other people suffer.

Whether he or she knows it, every last MAGA supporter is intent on imploding individual personal freedom, while devotedly following in the warm footsteps of "The Great Orange Leader" (GOL) down his path of senseless destructions.

Commodities expand freedom. Trade wars and real wars restrict &/or destroy commodities. (See: https://ftp.setterholm.com/freedomJS.pdf) GOL aspires to take away or destroy everything that makes anyone else "free", including all your stuff.

Again & again he turns on his most loyal followers, fires them, & publicly humiliates them. He prosecutes people who obey their oaths of office. If he retains the power and faculties to decide, he will eventually throw you and your loved ones under the bus.

For at least all of recorded history, ultra-rich, ultra-powerful people have created chaos & then bottom-fed in the wreckage, thus acquiring other people's assets for pennies-on-the-dollar. MAGA is another vibrant reincarnation of that extremely lewd power-game tradition. "Political Science" is long-overdue for a wakeup call.
