“Observations:”

1. The addiction of human adults to their personal world views is ubiquitous.

2. Human history’s normative “-ism” has been **opportunism**. *“Opportunism: a taking advantage, as in politics, of opportunities or circumstances, with little regard for principles or ultimate consequences. (Webster’s New Collegiate Dictionary, 1953)”*

3. Opportunism and adult world-view addictions **thwart Earthly human cooperation.**

...a concise generalization of the observations in “DIG’s & FIG’s”
